

Four Missions. Countless Lives Changed.

Operation Smile has been changing lives in Madagascar for 11 years. And your generosity has touched the country once more. Thanks to partners like you, in April we launched **four simultaneous**

medical missions across Madagascar.

This allowed our volunteer medical teams to reach patients in remote parts of the island. In all, we were able to deliver comprehensive

health screening to more than 600 patients and surgery to over 350!

Upcoming Medical Mission Schedule

Over the next 60 days, our volunteer medical mission teams hope to provide 2,350 free surgeries in 25 countries. Here are just a few of our dates:

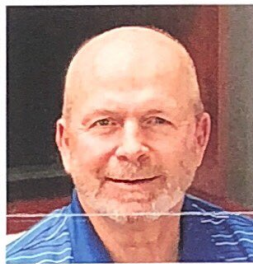

Ecuador	8/25
India	9/1
Thailand	9/9 – 9/15
Ghana	10/1
Panama	10/5 – 10/13

Smile Partner Spotlight

Creating a Family of Partners

Bob McGreevy has always been a giving person. So, when he received an email from Operation Smile telling him that \$240 would cover the cost of surgery for a child, he wanted to help. That day, Bob gave a single gift, but soon enough, he was a monthly Smile Partner.

“We have abundance, and it’s such an opportunity to give from our abundance to people who are so willing and so able to give their time to help others,” says Bob.

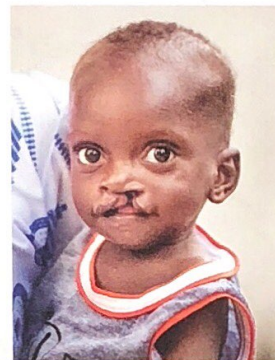

Now, Bob encourages other people in his life—his friends, his children and his customers at EffectivEnergy Solutions—to give as well.

“If you could impact somebody’s life in a way that would help them be educated and accepted in society, wouldn’t you be willing to do that? For \$240 you can change a person’s life forever.”

Bringing 21,000 New Smiles Into the World

Through the compassion and commitment from people like you, Operation Smile has been able to provide over 21,000 free surgeries to children around the world in 2017. That’s 21,000 lives changed forever—lives like Moses’.

This sweet little boy almost didn’t live to see his first birthday. But now, thanks to you, he is healthy and growing stronger every day.

Moses’ mother, *Aba*, did not give up hope for her son to have a healthy life. See their story on page 2.
